RE: NAB Petition 04-160

I am a current subscriber to XM Satellite Radio and find it invaluable to be able to access up-to-the minute weather and traffic reports while I am traveling. This has saved me from countless hours in traffic jams that would not only waste precious fuel, but also add to the problems of pollution. I have also been able to adjust my travel routes to avoid serious storm systems. Quite often local signals can become distorted and inadequate in providing necessary life and time saving information. I have paid for this service and find it not only invaluable, but enjoyable! I respectfully urge you to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,
Sandra Jager
